

20th September 2019

Publication of CACM Cost Report 2018

Under the EU regulation establishing a guideline on capacity allocation and congestion management (CACM), TSOs and NEMOs are required to publish an annual Cost Report.

It includes costs of coordinated activities of all NEMOs and/or all TSOs, and costs incurred for activities performed by NEMOs and/or TSOs in a certain region, in relation to single day-ahead coupling (SDAC) and single intraday coupling (SIDC).

The [CACM Cost Report 2018](#) has been published on the All NEMO Committee website with an improved structure based on NRAs feedback to the first [CACM Cost Report 2017](#) also available in the All NEMO Committee website.
